If any competitor requires photographs of their car taken at the Sprint at Hethel on Sunday 2 April I can supply collections of 10-20 images on CD at resolutions of up to 50 mega pixels so you can get them printed at any Lab at any size you require.

The photographs will be adjusted to give great printed results and be perfect for computer/ phone/pad viewing.

Cost per disc is £20 to include postage and sturdy packaging.

Please email me with your car number and address for further details.

Click on link below to view a special panorama picture of a car negotiating one of the curves as an illustration of the sort of images I supply
